To diagnose cars, connector must be activated

Activate

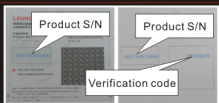

- 3 Fill in information, and then tap "Register and Log In".

2. Activate Connector

Method 1 Tap "Activate" on previous page:

Input Product Serial Number and Verification Code, which can be obtained from the confidential paper (See below figure). After inputting, tap "Confirm".

Method 2 If you did not activate the connector in process of registration, proceed as follows:

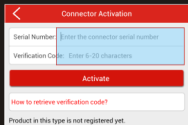

1. Tap **Function** icon.

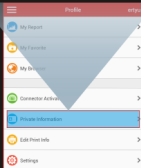

2. Tap **Profile** icon.

4. Input S/N and verification code, and tap Activate.

3. Tap **Connector Activation**.

3. Download Software

1

1. Tap **Function** icon.

2

2. Select **Update**.

4

4. Once download is complete, the system will decompress automatically and then install it. A logo corresponding to the software will appear.
